

BOOST

WEBINAR:
Supercharge your DMS in
under 30 minutes

MacroView

PRODUCTIVITY

Agenda

1. Installing and activating MacroView DMS
2. Provisioning document and email libraries
3. Key MacroView DMS features
4. Extending the solution to your team
5. Q&A
6. Where to find more information

Recap

Personal use / evaluation

1. Install MacroView DMS and Mail
2. Register your SharePoint tenant to activate your 30-day trial
3. Create an evaluation site (or use an existing site or Team)
4. Add the MacroView Document and Email Management solution
5. Provision MacroView Document and Email Management libraries

Team use / evaluation

1. Obtain an evaluation license key from MacroView Services and activate it on the MacroView Licensing Website (optional)
2. Create a solution resource library to centrally manage the configuration
3. Install MacroView DMS and Mail for additional users
4. Point DMS at the solution resource library in settings
5. Repeat steps 3 and 4 for each additional user

Supercharge your productivity!
